

HOZAIFA MOUSTAFA

Alexandria, Egypt · +201033199960 · Hozaifa.dev@outlook.com
linkedin.com/in/hozaifamoustafa · github.com/HozaifaMoustafa

SUMMARY

Data Scientist and Data Engineer with a track record of building production-ready AI systems, automated data pipelines, and intelligent analytics platforms. Taught 400+ students industry-standard data frameworks. Led IEEE student branch from 0 to 170+ members.

EDUCATION

Pharos University

B.Sc. Computer Science & AI, Data Science Major · GPA: 3.0/4.0

Alexandria, Egypt

Sep 2022 – Jun 2026

EXPERIENCE

Alshaya AI

Operation & Automation Engineer

Remote (KSA)

Dec 2025 – Present

- Building automated solutions for legacy systems, serving clients across KSA, China, and global markets.
- Enhancing client experience and reducing operational overhead through intelligent workflow automation.

Arabian Academy

Data Analysis Instructor

Alexandria, Egypt

Sep 2025 – Present

- Instructed 400+ graduates in industry-standard data analysis frameworks, emphasizing practical implementation and real-world data workflows.
- Enabled graduates to build automated daily, weekly, and monthly data pipelines, directly improving job placement rates and operational efficiency.

STC TV

Data Analytics Intern

Remote (Saudi Arabia)

Aug 2024

- Designed and implemented a predictive recommendation system using hybrid TF-IDF metadata modeling and custom engagement forecasting (ARIMA/SARIMA), driving a 28% increase in content personalization metrics.
- Streamlined viewer metric definitions, resolving structural churn analysis uncertainties to optimize executive visual dashboards.

Pharos University

Volunteer Programming Instructor

Alexandria, Egypt

Summers 2023 – 2025

- Taught foundational programming, data structures, and OOP design to undergraduate students across three summer cohorts.
- Inspired students to independently build data projects post-course, with several securing industry roles.

PROJECTS

UpHeal RAG System | Python, ChromaDB, Sentence Transformers, LLM Agents

Nov 2025 – Jun 2026

- Built a multi-agent RAG orchestration system with a Bayesian Network assessment engine to automate healthcare decision workflows. github.com/Upheal1/Upheal-RAG-System

Media Station | Python, Scrapy, BERT, Tableau, PostgreSQL

Client Project

- Built an automated data pipeline using asynchronous web scraping and BERT-based sentiment analysis to deliver real-time news monitoring dashboards for a media client.

Invoice Processing Pipeline | Python, Django, OpenCV, PostgreSQL

Client Project

- Developed a document parsing and computer vision pipeline to automate invoice data extraction, ledger matching, and transactional accounting workflows.

Salary & Manager Tracking System | Python, Pandas, SQL, Power BI

2025

- Engineered an ETL and database normalization framework to track salary disbursements, audit managerial discrepancies, and flag anomalies via relational data logic.
github.com/HozaifaMoustafa/tracking-bad-managers-salary-payment

Amazon Reviews Sentiment Analysis | Deep Learning, Python

Oct 2024

- Built a deep sequential neural model for sentiment classification of customer reviews. Presented findings at ESPC IEEE Section Egypt on marketing strategy applications.

VOLUNTEERING & LEADERSHIP

Chairman IEEE PUA Student Branch	May 2024 – Dec 2025
- Built the branch from 0 to 170+ students with 50+ core members across HR, Technical, and PR committees. - Organized 5 mega events with 300+ attendees; established full operational documentation, meeting schedules, and committee reports customized for Pharos University regulations.	
Founder Pharos Foresight Magazine	Jan 2024 – Jun 2024
Technical Member Google Developer Student Clubs (GDSC)	Sep 2023 – Jun 2024

TECHNICAL SKILLS

Languages: Python, SQL, R, Bash
Data Engineering: ETL Pipelines, Data Modeling, PostgreSQL, Docker, Scrappy
Data Science & AI: LLM Orchestration, RAG, Agentic Architectures, ML/DL (RNN, LSTM), BERT, Tableau, Power BI
Developer Tools: Git, GitHub, Excel, LaTeX

CERTIFICATIONS & TRAINING

Data Analytics Specialist Google - Digital Egypt Pioneers Initiative (DEPI)	Apr 2024 – Oct 2024
Quantum Computing & Programming QBronze138 – QWorld	Aug 2023
Entrepreneurship Training ITIDA – TIED InnovEgypt	Sep 2023

ACHIEVEMENTS

SeaPerch ROV Competition 2nd Place	Aug 2025
ICMTC Competition Speech Recognition Model	Jun 2024
ECPC Competitive Programming	Jun 2023
